Teacher of Science

Full time from September 2014

Are you already an inspirational teacher of Science or are you an NQT with the potential to be one? Our high achieving 14-19 college, on the edge of rural Leicestershire, is looking to appoint an exciting and innovative teacher to join an already excellent Science Faculty. Applicants from all specialist Science disciplines are welcome.

Our vision is based on the motto 'Achieving Excellence Together' which the Science Faculty at Groby Community College epitomises. Following our 'good with outstanding features' OFSTED in February 2013 we are now firmly on the journey to outstanding. Our A Level results in 2013 were highest in Leicestershire for A*-B.

Science results at GCSE are consistently outstanding and the numbers of students taking A Levels in the faculty are rising rapidly. The Science faculty are a strong and dynamic team who are committed to getting the best possible outcomes for young people that they can. If you want to work alongside this forward thinking, outward looking and dedicated team then please put in an application.

As a college we place professional development and success of our staff at the heart of our work. We have a number of programmes in place to support our newly qualified staff as well as those in the first few years of the profession. We believe in developing outstanding teachers who have both the classroom and leadership skills to go onto being future school leaders.

We want the best and therefore have the capacity to offer a recruitment and retention allowance in the first instance for a suitable candidate.

For an information pack or to arrange an informal discussion/tour of the college please contact Tracey Malsbury, Business Support Officer – tmalsbury@grobycoll.com.

Closing date: Monday 10 March

Interviews: Friday 14 March

Groby Community College is committed to safeguarding and promoting the welfare of children and young people and expect all staff and volunteers to share this commitment. Applicants must be willing to undergo appropriate child protection screening, including checks with past employers and the Criminal Record Bureau.
